- ✓ Complete your performance reports with one click
- ✓ Built-in data security, disaster recovery, and redundancy
- ✓ Unlimited training and technical support for all users
- ✓ Straightforward, flat monthly fee starts at only \$39

What is FamilyMetrics?

FamilyMetrics is Web-based resident services software. It was developed by Pangea FoundationTM in collaboration with the National Resident Services Collaborative, and supported with generous funding from EnterpriseTM. Custom-designed to meet the needs of Service Coordinators working in multi-family affordable housing, FamilyMetrics makes documentation, outcomes tracking, and reporting a breeze. Harness the power of FamilyMetrics to inform your stakeholders about the importance of resident services.
